The Copyright Owner(s) would like CSIRO Publishing to publish the Work.

The Author(s) have created the Work and the Work has been submitted to CSIRO Publishing for CSIRO

Publishing to publish the Work in accordance with the terms of this Agreement.

1. Signing of this Agreement

1.1 By signing this Agreement, the Copyright Owner(s) acknowledge they have read and accepted the terms of this Agreement.

2. Submission and review of the Work

2.1 The Copyright Owner(s) confirm that at the time of submitting the Work to CSIRO Publishing, CSIRO Publishing was granted (and to the extent this was not effective, hereby grant with effect from the date of submission) a sublicensable licence to reproduce and review the Work for the purpose of assessing the Work for potential publication.

2.2 CSIRO Publishing will publish the Work in the Journal if, in its sole-discretion, it determines that it is appropriate to do so.

2.3 If the Work is withdrawn, rejected or otherwise not published by CSIRO Publishing, CSIRO Publishing will inform the Copyright Owner(s) of this in writing (**Notice**) and the licence granted in clause 3.1 will not take effect, or if the licence has taken effect, such licence will terminate with immediate effect upon giving of the Notice. CSIRO Publishing and any Editor may retain a copy of the Work as reasonably required.

3. Licence and open access

3.1 To the extent that any copyright subsists in the Work in any territory, the Copyright Owner(s) hereby grant to CSIRO Publishing a non-exclusive, sublicensable, transferable, royalty-free, world-wide licence to edit, adapt, publish, reproduce, distribute, communicate to the public and otherwise use the Work or any part of the Work in all forms and media and in all languages for the full remaining term of the copyright subsisting in the Work.

3.2 The Copyright Owner(s) agree to:

- (a) include a link and/or reference to the VoR as published by CSIRO Publishing on all digital copies used by it in accordance with clause 3.2; and
- (b) ensure that the Work is not used in any way that implies or represents that CSIRO Publishing, the Journal or the Editors endorse any product or procedure described in the Work.

3.3 Subject to clause 2.2 above, CSIRO Publishing will publish the VoR in the Journal under the terms of the Creative Commons licence as selected by the Author(s) and subject to payment of any applicable APC.

4. Warranties

4.1 The Copyright Owners warrant and represent to CSIRO Publishing that:

- (a) they have full authority and power to agree to and enter this Agreement;
- (b) the Work is an original work created by the Author(s);
- (c) where the Work does not include any third party material, the Copyright Owner(s) are the owner(s) of all copyright in the Work;
- (d) where the Work includes any third party material, the Copyright Owner(s) have obtained all rights from the relevant third parties to include the material in the Work and license the copyright in the material to CSIRO Publishing in accordance with the terms of this Agreement;
- (e) they have the right to grant the licence in clause 3.1;
- (f) the Work and CSIRO Publishing's reasonable use of the Work, in accordance with the licences granted to it under this Agreement, does not infringe any intellectual property rights, moral rights or any other rights of any person;
- (g) the Work has not been published in any form (except if included in a preprint server);
- (h) the Work is not presently being considered for publication with another publisher;
- (i) they are not the subject or target of or otherwise affected by any sanctions imposed by the sanctions authority of any government;
- (j) the Work does not contain any subject matter that contravenes any applicable laws (including defamatory material, misleading and deceptive material) or any material that would harm the reputation of CSIRO Publishing;

- (k) the Work does not contain any material that breaches any confidentiality obligation or discloses any personal information of any person without that person's written consent;
 - (l) all statements in the Work purporting to be factual are true and any formula, instruction or equivalent contained therein will not, if followed correctly, cause any injury or damage to the user;
 - (m) there are no actual or apparent conflicts of interest connected to the Work that have not previously been declared;
 - (n) if they have used any artificial intelligence tool in the writing of the manuscript or production of any of its graphical elements or in the collection or analysis of data, they have disclosed in the 'Materials and Methods' section of the Work which tool(s) and how it was used;
 - (o) they agree to comply with any and all applicable CSIRO Publishing policies as at the time of entering into this Agreement. These policies are currently accessible on the CSIRO Publishing website; and
 - (p) the Work meets all ethical standards applicable to the research discipline.
- 4.2 If, following consultation with the Copyright Owner(s), CSIRO Publishing reasonably considers that any Copyright Owner has breached any of the warranties or representations in clause 4.1, CSIRO Publishing may cease making available or publishing the Work, or require that the Copyright Owner(s) make any necessary revisions to the Work.
- 4.3 Each Copyright Owner must notify CSIRO Publishing promptly if it becomes aware of any circumstances that materially affect any warranty given in clause 4.1.
- 4.4 The Copyright Owner(s)'s liability for any loss to CSIRO Publishing arising from a breach of any of the warranties in clause 4.1 is reduced to the extent that CSIRO Publishing caused such loss through its wilful misconduct or negligence.
